

NORTHWEST NOTES

The city election at Missoula, Mont., resulted in a partial victory for the municipal ownership league.

A postoffice has been established at Aurora, Esmeralda county, Nevada, six miles southeast of Fletcher.

The quarantine established against sheep of various states by Wyoming was lifted last week. Sheep entering that state must be dipped but other restriction are removed.

Complete returns of the Tacoma city election show that George P. Wright, democrat, was re-elected mayor over McCormick, republican, by 295 plurality, and over Hartman, municipal ownership, by 1,664.

Maurice Thompson of Butte, defeated "Kid" Parker of Denver, in the 16th round before the Spokane Amateur Athletic club. A hard blow back of the ear knocked the kid completely out. It was a bloody exhibition.

In the city election at Helena the republicans elected the mayor, police judge and six aldermen. The democrats elected the treasurer and one alderman. The next council will stand nine republicans and five democrats.

Detective Bob Briley shot and killed Edward Donnelly, who was burglarizing the Parisian Clook and Suit house in Spokane. A woman in a neighboring building discovered the burglar at work and telephoned the police.

Nearly 350 of the 450 painters and paper-hangers in Denver have gone on strike for increased wages. Should the strike continue long it is expected that the entire building trades council's membership of 5,000 men will become involved.

Thomas Logan, sheriff of Nye county, Nevada, was shot and killed at Manhattan by a gambler known as "Blondy" Berry. Logan attempted to prevent a pistol duel between Berry and another gambler, and received the shots which killed him.

Charles G. May, former president of the Big Bend National bank at Davenport, Wash., has been sentenced to serve five years in the penitentiary for violation of the banking laws. This is the minimum sentence. May wrecked the bank in mining speculation.

The business part of the town of Bannock, one of Montana's first mining camps and the first capital of the territory in Beaverhead county, has been practically wiped out by fire. The fire is believed to have been incendiary. The total loss is about \$10,000.

The estimated value of the oat crop of Idaho for 1905, is given as \$1,622,664. A total of 4,069,420 bushels were raised on 98,058 acres, an average per acre of 49.4 bushels, and the average market price per bushel was 42 cents.

Considerable excitement has been caused by the announcement of Stephen Carver, a banker of Chinook, Mont., that he is desirous of building a railroad from Lewiston through Clarkston to Astoria and then to Astoria county, a distance of 32 miles.

Duncan Clark, for years holder of the title of champion steer roper of the world, was accidentally killed near Cheyenne, while hunting with two friends. The three were crawling along the ground toward a herd of antelope when a gun carried by the man immediately behind Clark was discharged. The charge entered Clark's body, causing instant death.

Charles Secrist, the policeman who shot Thomas Johnson in a dispute over a dice game in a saloon in Denver on February 9 last, and who was convicted of murder in the second degree, has been sentenced to serve from fourteen to twenty years in the state penitentiary.

Brakeman C. W. Hildebrand and Fireman John Davis were killed by the overturning of a freight locomotive on the Burlington railroad near Arvada, Wyoming. Davis was alive for several hours under the wreckage. The accident was caused by a creak in the track.

It is believed by Portland detectives that Fred Paul, the burglar who on Monday night shot and seriously wounded George Douglas in the latter's home in San Jose, is a former soldier, at Vancouver barracks, who deserted and to whom was traced a number of crimes.

The collieries at Casper, Wyo., are closing down and the miners are leaving to seek work in other fields. All efforts to settle the differences have proven futile. The trouble arose over the organization of a union and demands which the company decided it could not accede to.

Charles Souter of Lander, Wyo., lost 2,000 sheep by a flood of water which came down through his lambing sheds carrying away 1,500 ewes and the same number of lambs. Mr. Souter has for years carried on his lambing operations in March in these sheds, and until now has had good luck.

The yield from 66,153 acres of barley sown in Idaho during the past year was 2,646,120 bushels or an average per acre of 40 bushels. The average market price per bushel for the year, 48 cents, made the entire crop worth \$1,270,138.

S. L. McFarland, the Lewiston attorney, who was charged with the embezzlement of \$500 from Mrs. Martha Morrison, a client, had his trial last week, but on the fourth day of the trial the jury was discharged after having been out 29 hours without having been able to reach an agreement.

TOWNS COVERED BY MOLTEN SEA

Fearful Destruction Caused by Recent Eruption of Mount Vesuvius.

Homes of Ten Thousand People Buried Beneath Sea of Lava, While Thousands of Terrified Residents Are in Hourly Fear of a Similar Experience.

Naples.—The hope that Mount Vesuvius was becoming calm, was dashed Sunday when the volcano became more active than ever.

The panic has spread to Naples. Two strong earthquake shocks which shattered windows and cracked the walls of buildings were experienced on the Sabbath day. The entire population rushed to the streets in terror, many persons crying "the Madonna has forsaken us; the end of the world has come."

No trace remains of Boscorecaz, a commune on the southern declivity of the mountain, where 10,000 persons lived; and Torre Annunziata, on the shores of the Gulf of Naples, one mile to the southwest, is almost surrounded by the invading lava and has been evacuated by its 39,000 inhabitants. The people were brought to Naples by trains, street cars, military carts and steamships. Similar means of transportation are being employed to bring away the people from Torre del Greco. The police and carabinieri are guarding the abandoned houses and several members of the government also are there.

A telegram received from the mayor of San Sebastiano, a village near the observatory on the north-west declivity of Vesuvius, says that lava is approaching rapidly and that the people are terror-stricken. They have been for nights without sleep, he says, are destitute and beg assistance be given them.

The work of the mayor is hampered owing to delays to the railway service which is interrupted by red hot stones thrown to a height of 3,000 feet falling on the tracks.

Record Breaking Crowds.

Salt Lake City.—The closing sessions of the Latter-day Saints' conference were attended by larger crowds than on any previous occasion in the history of the church, the weather being favorable to a large attendance. On Sunday it was necessary to hold an overflow meeting in the morning in the Assembly hall, and in the afternoon two overflow meetings were held. One was held in the Assembly hall and the other in the open air in front of the bureau of information. It is estimated that 11,000 persons jammed and packed themselves into the tabernacle Sunday afternoon. The Assembly hall was packed to suffocation. The crowd which was forced to attend the open air meeting was so great that many could not approach the stand close enough to understand what the speakers were saying.

Californian Runs Amuck.

Grass Valley, Cal.—Jack Alden fatally stabbed his father-in-law, Alfred Jenkin, sr., and inflicted ten stabs on his wife in this city Sunday evening. Mrs. Allen is dangerously wounded, but the attending surgeons held out hope for recovery. The deed was committed at the Jenkin home, where Allen and his wife also resided. Allen, who has been drinking considerably of late and acting peculiarly, was called to supper, when he seized a knife and attacked his family.

Begged to be Locked Up.

Salt Lake City.—John P. Watson, said to be from Kansas City, and thought to be mentally deranged, is confined in the city jail and will be examined as to his sanity. Watson walked into the police station Sunday and begged to be locked up. He said men were after him, and unless he was protected he would be killed. Watson declared he came from Kansas City, where he said his wife lives. Further than this he would not answer questions.

Cuba Follows the Dominion.

Washington.—A report issued by the department of commerce and labor on the Cuban trade says: Cuba ranks second in importance in the trade relations of the United States with other American countries. The total trade of the United States with the principal countries of America in the calendar year of 1905 was: With Canada, \$203,000,000; Cuba, \$125,000,000; with Brazil, \$111,000,000; with Mexico, \$92,000,000, and with Argentina \$39,000,000.

Towed into Port.

Tokio.—The Italian sailing ship Brasso, Captain Amelio, which sailed from Philadelphia, Sept. 9, for Nagasaki with a cargo of oil, was towed into Nagasaki last Friday by the German steamer Selkoviya, which found the Brasso off Kagoshima in a miserable condition. The Brasso experienced bad weather for seven months, during which time the entire crew of twenty-four was successively attacked by illness until all were disabled. One of the crew died.

Date Not Convenient.

Washington.—The state department has suggested to the Russian government, through Ambassador Rosen, that the period suggested in the Russian note for the convention of the second Hague conference, namely, the early part of July, would be inconvenient to America and to some other countries of this hemisphere, which were expected to be represented at The Hague. The reason for this action was to avoid a conflict with the pan-American congress.

TWO APOSTLES RESIGN NEW ONES ARE NAMED

Resignations of Apostles Cowley and Taylor Announced at Conference and Richards, Whitney and McKay Chosen to Fill Vacancies.

Salt Lake City.—At Sunday's session of the conference of the Church of Jesus Christ of Latter-day Saints, Apostle Francis M. Lyman announced to the enormous crowd in the tabernacle that Apostles John W. Taylor and Matthias F. Cowley had resigned and that their resignations had been accepted last October, because they were out of harmony with their quorum and with the presidency of the church. The announcement was also made by Apostle Lyman of the death of Apostle Mariner W. Merrill, who died at his home in Richmond last February.

Apostle Lyman also announced the fact of the death of C. D. Fjelsted, a member of the council of first seven presidents of seventies.

Mr. Lyman continued to preside over the conference while the authorities were sustained. He asked the members in voting to raise their hands high so they could be seen. President Smith was sustained by the unanimous vote of everybody present. So was every other member of the general authorities.

The acting members of the quorum of apostles were put up together to be sustained, and there was no dissent. Then came the three new ones to be appointed, and the men chosen, in the order which they will rank as to seniority, were George F. Richards, Orson F. Whitney and David O. McKay.

In view of the changes made in the quorum, the line of apostolic succession to the presidency of the church is as follows: Francis M. Lyman, John Henry Smith, George Teasdale, Heber J. Grant, Anthony H. Lund, Rudger Clawson, Reed Smoot, Hyrum M. Smith, George A. Smith, Charles W. Penrose, George F. Richards, Orson F. Whitney and David O. McKay.

Judge Charles H. Hart of Logan, who succeeds to the vacancy in the council of seventies, was formerly judge of the First judicial district. He had been called on a mission to the eastern states, to depart next November, but his elevation will probably cause that program to be changed.

George F. Richards, the first named of the new apostles, is president of the Tooele stake, and a brother-in-law of President Smith. He is a son of the late Apostle Franklin D. Richards. He was born in Davis county and is 45 years of age. He was ordained an elder in the church in 1876. He is a farmer, a Democrat in politics, and was a member of the legislature of 1899 from Tooele county. He was ordained as a seventy in 1884, and before he became stake president he was a counselor to the president of the church.

Orson F. Whitney, the second named of the new apostles, is one of the best known men in the Mormon church. He is bishop of the Eighteenth ward of Salt Lake City and is the author of a three-volume "History of Utah." He was born in the ward of which he is now bishop, and is 51 years of age. He is a grandson of Newell K. Whitney, the second presiding bishop of the church.

Who Retiring Apostles Are.

Salt Lake City.—John W. Taylor, one of the apostles who has resigned, is a son of John Taylor, third president of the Mormon church, and the immediate successor of Brigham Young. He is a native of Provo, and was elevated to the apostleship in 1884, by his father, Cowley, the other apostle who has retired, is a native of Salt Lake. He was appointed to the apostleship in 1897 by President Wilford Woodruff. It is a coincidence that the two men who were deprived of their apostolic honors Sunday have been bosom friends since boyhood.

Conference of Sunday School Union.

Salt Lake City.—The semi-annual conference of the Sunday school union of the Mormon church was held in the tabernacle Sunday evening under the direction of Elder George D. Pyper. The program consisted of music by the L. D. S. university and tabernacle choirs, and reports and discourses relative to the progress of the Sunday schools. Fifty-four stakes were represented. The total number of members, officers and teachers enrolled in the Sunday school is 122,360.

Dowleites Denounce Leader.

Zion City, Ill.—The people of Zion City heard their former leader, John Alexander Dowle, denounced from the pulpit in Shiloh tabernacle Sunday, and they approved it, or at least as many of them as could crowd into that vast meeting house signified their willingness in a manner that left no doubt of sincerity to follow in the footsteps of the first apostle's successor, General Overseer Voliva. Zion's new leader was the man that told of Dowle's alleged misdeeds.

Boiler of River Tow Boat Blows Up.

Ravenswood, W. Va.—While on the way up the Ohio river from Cincinnati to Pittsburgh with twelve empty barges the boiler of the tow boat H. M. Hoxie of Pittsburgh blew up Sunday and the boat sank within five minutes, off Portland, O. John Moran of Pittsburgh, a freeman, is missing, and is thought to be drowned, while Joseph Wheeler, another freeman, was scalded by steam and will die, while three others of the crew had limbs broken and were also scalded.

The Best Guaranty of Merit Is Open Publicity.

Every bottle of Dr. Pierce's world-famous medicine leaving the great laboratory at Buffalo, N. Y., has printed upon its wrapper all the ingredients entering into its composition. This fact alone places Dr. Pierce's Family Medicine in a class all by themselves. They cannot be classed with patent or secret medicines because they are neither. This is why so many unprejudiced physicians prescribe them and recommend them to their patients. They know what they are composed of, and that the ingredients are those endorsed by the most eminent medical authorities.

The further fact that neither Dr. Pierce's Golden Medical Discovery, the great stomach tonic, liver invigorator, heart regulator and blood purifier, nor his "Favorite Prescription" for weak, overworked, broken-down, nervous women, contains any alcohol, also entitles them to a place all by themselves. This fact alone places Dr. Pierce's medicines in a class all by themselves. They cannot be classed with patent or secret medicines because they are neither. This is why so many unprejudiced physicians prescribe them and recommend them to their patients. They know what they are composed of, and that the ingredients are those endorsed by the most eminent medical authorities.

Neither the above medicines contains alcohol, or any harmful, habit-forming drug, as will be seen from a glance at the formula printed on each bottle wrapper. They are safe to use and potent to cure.

Not only do physicians prescribe the above, non-secret, medicines largely, but the most intelligent people employ them—people who would not think of using the ordinary patent, or secret medicines. Every ingredient entering into the composition of Dr. Pierce's medicines has the strongest kind of an endorsement from leading medical writers of the several schools of practice. No other medicines put up for like purposes has any such professional endorsement.

Dr. Pierce's medicines cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. One "Pellet" is a gentle cathartic, and a mild cathartic. Druggists sell them, and nothing is "just as good." Easy to take as candy.

Chinese Are Good Horsemen.

In describing the Chinese cavalry, a correspondent asserts that horses in finer condition do not exist in any part of the world. He says that the Chinaman is a born horseman, who has nothing to learn from Europe or America in the handling of horses, though he is ignorant of veterinary science.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it is

Bears the Signature of

In Use For Over 30 Years.

The Kind You Have Always Bought.

THE FINISHING TOUCH NEEDED.

Kind Words of Farm Hand to Brilliant Young Artist.

The late Henry Harland, author of "The Cardinal's Buffcoat" and other graceful stories, was once recounting, at the Authors' club in New York, his experiences as editor of the famous "Yellow Book."

Mr. Harland praised Aubrey Beardsley. "Though only a boy of twenty-one or so," he said, "Beardsley was as clever in the editorial as in the contributing capacity. He was, indeed, practically the art editor of the 'Yellow Book'."

"I was fond of him. I once took a three days' walking trip with him. He sketched, of course, on the walk. He made a number of sketches in oil colors. And they were very artistic and shaggy."

"A farm hand watched Beardsley finishing a particularly shaggy sketch one afternoon and said encouragingly: 'My lad, that won't be a bad picture after it's been sandpapered down a bit.'"

Steam in its Infancy. The first steamer to make a voyage across the western ocean was the Savannah of 250 tons and a length of 100 feet. She sailed from Savannah, May 24, 1819, and arrived at Liverpool June 30. Her steam was purely auxiliary, for when the wind was fair or the sea high the paddle wheels were unshipped and stowed on deck.

New Steel for Tools.

A new steel for tools is being placed on the market; it can be hardened by simply heating to a high temperature and allowing it to cool in the air. Tools made out of this steel do not become soft through growing hot while being worked.

Remedy Worth Remembering. If a child should swallow any dangerous substance, immediately lay down its throat the white of an egg, which will form a curd around it and thus prevent serious effects.

DECAYED STARCH.

A Food Problem.

An Asheville man tells how right food did that which medicines had failed to accomplish.

"For more than 15 years," he says, "I was afflicted with stomach trouble and intestinal indigestion, gas forming in stomach and bowels and giving me great distress. These conditions were undoubtedly due to the starchy food I ate, white bread, potatoes, etc., and didn't digest. I grew worse with time, till, 2 years ago, I had an attack which the doctor diagnosed as appendicitis. When the surgeon operated on me, however, it was found that my trouble was ulcer of the pancreas, instead of appendicitis."

"Since that time I have had several such attacks, suffering death, almost. The last attack was about 3 months ago, and ended untold agonies. 'The doctor then said that I would have to eat less starchy stuff, so I began the use of Grape-Nuts food for I knew it to be pre-digested, and have continued same with most gratifying results. It has built me up wonderfully. I gained 10 pounds in the first 8 weeks that I used Grape-Nuts, my general health is better than ever before, my brain is clearer and my nerves stronger."

"For breakfast and dinner, each, I take 4 teaspoonfuls of Grape-Nuts with cream, a small slice of dry toast, an egg soft boiled and a cup of Postum; and I make the evening meal on Grape-Nuts and cream alone—this gives me a good night's rest and I am well again." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in pkgs.

JAPANESE WILL OPEN MANCHURIA

Citizens and Vessels of All Countries Soon to Enjoy Promised Privileges

Japanese Government Has Decided in Accordance With the Principles of Open Door and Equal Opportunities for All After the First of June.

Washington.—The following statement has been given out at the Japanese legation:

"Owing to the fact that the withdrawal of the troops from Manchuria has not sufficiently progressed, the Japanese government hitherto has neither permitted citizens and vessels of foreign countries to enter the ports and regions of Manchuria, nor allowed foreign consuls to proceed to their posts therein. Considerable progress, however, having now been made in this respect, the Japanese government has decided in accordance with the principles of open door and equal opportunity ever advocated by them, to permit citizens and vessels of foreign countries to enter, from May 1, An Tung Hsien and Ta Tung Kao, and allow foreign consuls to proceed to their posts at An Tung Hsien.

"From June 1, foreign consuls shall be allowed to proceed to their posts at Mukden and traveling of foreigners in the interior of Manchuria will be permitted so far as military exigencies do not prevent it. It has further been decided that the Japanese government will open Dairen (Ta Lien Wan) to commerce of the world in as near future as possible.

"Judging from the present condition of the interior of Manchuria, it is impossible for the authorities to afford such foreign travelers adequate protection and facilities in housing and other matters. Those, therefore, who enter the interior of Manchuria do so entirely at their own risk, and the Japanese government do not hold themselves responsible for any injury or damage which they may suffer from bandits or other marauders."

MAKES SERIOUS CHARGE.

Officers of Mattleship Oregon Accused of Smuggling Goods.

San Francisco.—The Evening Post publishes a story to the effect that a strong belief exists that dutiable goods valued at about \$750,000 were smuggled ashore in launches from the battleship Oregon just before she departed for the Bremerton navy yard. It says that an order has been issued instructing the inspectors at Bremerton to delay every man of the battleship until the whole matter has been sifted to the bottom, and the customs authorities throughout the country have been notified to find and examine the questionable packages if possible.

How Chinamen Get to United States.

Washington.—Commissioner General Sargent of the immigration service was heard on Monday by the house committee on foreign affairs relative to the proposed amendments to the Chinese exclusion act. The commissioner reviewed at length the difficulties in the way of enforcing the present law. The greatest cause of complaint arose, in his opinion, from the fact that what are known as "Section 6 Certificates," which are in reality passports of Chinamen privileged to land in this country, were made out in blank by United States consular officers in China and were bartered in for a bribe.

NEW TRIAL ASKED.

Hearing in the Case of Patrick, Now Under Sentence of Death.

New York.—The hearing on the application for a new trial for Albert T. Patrick, under death sentence on the charge of killing William Marsh Rice, was resumed Monday. Alexander B. Stanberry, a sergeant in the United States army, who came from the Philippines to testify, was the first witness called. He had been employed by Rice as a clerk and left his employment in 1897.

Rainfall in Nevada Makes More Trouble for Salt Lake Route.

Salt Lake City.—Rains falling in Nevada have delayed the work of repairing the Salt Lake Route's tracks near Caliente. Local officials are unable to furnish any information, as no news is coming from the scene of the washouts. General Manager R. E. Wells of the Salt Lake Route is quoted by the Los Angeles papers as saying that the rains have delayed work and undone some of the repairs already made.

California Youths Charged With Cold Blooded Murder.

Fresno, Cal.—Elmer and Willie Halm, aged 21 and 19 years respectively, were held to trial before the superior court by Justice Smith Monday afternoon on the charge of murdering aged William G. Hayes and his wife on October 30 last. The crime was one of the most cold blooded and brutal in the history of the state. Hayes was a well known rancher, who lived in this county for twenty-five years.

Congratulated by Hysterical Women.

Louisville, Ky.—The jury in the case of Rev. U. S. Southernhan, on trial at New Albany, Ind., charged with the murder of his wife, Geneva L. Southernhan, returned a verdict of not guilty. The jury had been out since Saturday morning, but did not decide upon the verdict until 8 o'clock Monday morning. Rev. Southernhan received the verdict with composure and was congratulated by a number of physicians and several hysterical women who were in the court room.

SLEEP REQUIRED BY CHILDREN.

Ten Hours Necessary for the Growing Youngsters.

Oliver Wendell Holmes said that a child upon awakening in the morning from a healthful sleep in a bad humor needed a spanking. He thought it very beneficial, promoting a good circulation of the blood; but he added that a child who was unreasonable and willful after a busy day was simply tired and should be put to bed. Nature is the genuine healer and sleep the true restorer of all our powers. Parents who realize this can save themselves many anxious moments, many heartaches, many doctor bills and establish habits of regular living that will bring long good results through a long line of offspring and generations to come. Every child requires at least ten hours of sleep, and it is a good practice for him to continue sleeping the full ten hours all through the school life. Work would thus be rendered easier, health would be better and youthfulness prolonged; many nervous tendencies and diseases would be wiped out and clearer, brighter mentality would be maintained.—Brooklyn Eagle.

RHEUMATISM CURED

The Disease Yielded Readily to Dr. Williams' Pink Pills After Other Treatment Failed.

Dr. Williams' Pink Pills cure rheumatism because they supply the necessary elements to the vitiated blood and enable nature to cast out the impurities and effect a cure. Mrs. A. Baker, of No. 119 Fitch street, Syracuse, N. Y., will furnish living evidence of the truth of this statement. "There has been rheumatism in my family ever since I can remember," she says. "My grandmother was a great sufferer from rheumatism and my mother also had the disease in a mild form. About a year ago I had a hard cold and rheumatism caught me in my left knee. There were sharp pains, confined to the neighborhood of the knee and they seemed to go right into the bone. The pain suffered was intense and I also had dizzy spells. 'The doctors called my trouble uricatic and sciatic rheumatism. When I didn't get better under their treatment my brother-in-law suggested that I try Dr. Williams' Pink Pills. I bought three boxes, and, by the time I had taken them, the pain and dizziness had entirely left me. I wanted to make sure of a cure so I bought three more boxes, but I didn't take quite all of them as I found that I was entirely cured. 'Before I took the pills the pain was so severe that I had to cry at times and when I was cured I was so thankful and grateful and I am glad to recommend them to every one who suffers with rheumatism.'"

Dr. Williams' Pink Pills have cured severe cases of anemia, sciatic, nervousness, partial paralysis, locomotor ataxia and St. Vitus' dance that have not responded to other modes of treatment. All druggists sell Dr. Williams' Pink Pills or they will be sent by mail, post paid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Co., Schenectady, N. Y.

TREASURE OF BRITISH MUSEUM.

Atlas Centuries Old Probably Largest Book in World.

Bigger than any other book in the world—that is, bigger in height and breadth—is a curiously unique atlas in the British museum. It contains a collection of the finest engraved maps of the Stuart period, and a bound in red leather, beautifully ornamented with gold designs, and is secured by three massive gilt clasps. This mighty volume measures five feet ten inches high, and is proportionately broad, being nearly square. The dedication page is hand drawn and richly illuminated. It was presented to King Charles II. immediately before he left Holland on his restoration to the throne in 1660. The only known contemporary reference to this volume is given by John Evelyn in his diary, under date 1660. "November 1 I went with some of my relations to court," says John Evelyn. "to show them his majesty's cabinet and closet of varieties. There I saw a vast book of maps in a volume some four yards large." The book came into the possession of the nation when King George III. bequeathed his library to the British museum. Here the great book is most tenderly guarded, for it is accounted one of the library's chief treasures.

USE THE FAMOUS Red Cross Ball Liniment, package 5 cents. The Russ Company, South Bend, Ind.

Original New England.

The original New England was on the Pacific coast. Francis Drake in 1579, at the close of a month's stay, took possession of the country for his sovereign, Elizabeth, and named the new acquisition Nova Albion (New England), because of the white cliffs near what is now Point Reyes resembled the chalk cliffs near Dover.—The Outlook Magazine.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. See a bottle.

Keeping Youthful.

It is a great mistake for adults, and especially for those who work their brains much, to give up sports and games. The maxim on which I have acted and the maxim which I have often commended to my friends is: Be a boy as long as you can.—Herbert Spencer.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the cells of small and completely denude the whole system when entering it through the mucous surface. Such articles should never be used except on prescription from reputable physicians, as the damage they will do to the system is incalculable. Dr. J. C. Cheney & Co., Toledo, O., contain no mercury, and is taken internally, acting directly upon the blood and mucous surface of the system. In buying such a Catarrh cure, be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by J. C. Cheney & Co., Toledo, Ohio. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

Drape Hearse in Green.

At Lancaster, England, the other day, at the funeral of W. Wingate Saul, a former army surgeon, the hearse was draped in green, the drivers wore green and chestnut horses were used.

Point Overlooked by Rich.

If the rich would but grasp how their own health depends on the health of the poor, they would quickly take another and a far better view of the whole matter.—Dr. J. C. Cheney & Co.

A LIVING DEATH.

Vividly Described By a Citizen of Sioux Falls, South Dakota.

Andrew Johnson, 411 West Twelfth St., Sioux Falls, S. D., says: "Don't Kidney Pills saved my life. My doctor, from a careful analysis of the urine and a diagnosis of my case, had told me I could not live six weeks. I was struck down in the street with kidney trouble, and for a whole year could not leave the house."

I lost flesh, my eyes failed me, I bloated at times, my back hurt and I suffered a living death. There seemed no hope until I began using Don't Kidney Pills. Then I began to improve. The pain left gradually, the swellings subsided, I gained appetite and weight, and to make a long story short, I got well!"

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Strong Words Come Handy.

In America we will fight the swearing habit. We will admit that it is immoral and unwise to curse, but there is a heap of comfort in the fact that when the jelly refuses to jell and the stappadder falls and the door closes on two fingers and a bolt finds its resting place on the end of one's nose, there are words, codies of them, in this good English language that might be used if a victim was so minded. There is nothing like having a thing handy, even if you do not want it.—Mobile Herald.

Ever Hear of "Scotty" and His Record-Breaking Ride?
